# VIVEK GAUTAM

**SECURITY RESEARCHER | SECURITY OPERATIONS | FULL-STACK DEVELOPER**

Delhi, India 110096 | +91 9354256637 | vivek462254@gmail.com
linkedin.com/in/vivek-gautam-aa758b418 | github.com/Kratos3213

## PROFESSIONAL PROFILE

Security researcher and full-stack developer with hands-on experience in vulnerability assessment, penetration testing, incident triage, and application development. Builds Python-based security tooling and privacy-conscious web products, combining network and system diagnostics with practical threat prioritization and clear technical documentation.

## TECHNICAL SKILLS

| | |
|---|---|
| **Security & assessment** | Vulnerability assessment, penetration testing, threat triage, logic flaw analysis, reverse engineering, operational security |
| **Security & support tools** | Nmap, Metasploit, Burp Suite, OWASP ZAP, Wireshark, Nikto, WPScan, Hashcat, Hydra, John the Ripper |
| **Systems & operations** | Windows, Linux CLI, TCP/IP, DNS, DHCP, PowerShell, Event Viewer, ServiceNow, Freshdesk, log analysis |
| **Programming & web** | Python, Bash, JavaScript, TypeScript, C, C++, Kotlin, React.js, Node.js, Express.js, REST APIs |

## PROFESSIONAL EXPERIENCE

### Cyber Security Specialist

**AUG 2025 - OCT 2025**

**CYBERZERO | Mumbai, India**

**45-DAY OPERATIONAL DEPLOYMENT**

* Conducted vulnerability assessments and penetration testing across client networks using Nmap and Metasploit to identify high-risk attack vectors.
* Used PowerShell, Windows Event Viewer, Wireshark, and network diagnostics to investigate OS-level events, identify anomalies, and verify system stability.
* Managed incident logs and vulnerability tracking in ServiceNow and Freshdesk, supporting triage, knowledge-base updates, and timely resolution.
* Collaborated with senior specialists across information-security domains during an intensive operational deployment.

## SELECTED PROJECTS

### AEGIS - Autonomous Penetration Testing Framework

**PYTHON | AI/ML**

Engineered a security automation framework to enumerate network vulnerabilities using integrated scanning utilities. Added algorithmic threat scoring and dynamic report generation to help prioritize critical findings and reduce manual triage.

### Soulbottherapy - Secure Mental Health Platform

**REACT.JS | NODE.JS | CUSTOM NLU**

Designed and supported a responsive mental-wellness application featuring Solululu, a custom natural-language chatbot. Focused on privacy-conscious handling of sensitive user data and an accessible application experience.

# VIVEK GAUTAM

**SECURITY RESEARCH | PRACTICAL LABS | EDUCATION**

## ADDITIONAL PROJECT

### Smart-Health - Healthcare Management System

**FULL-STACK | ROLE-BASED ACCESS**

Developed a centralized healthcare management platform with role-based access controls and authored core synopsis and technical reporting documentation to support future deployment and troubleshooting.

## HANDS-ON SECURITY RESEARCH

### TryHackMe - Top 1% global rank

* Completed 100+ practical labs spanning offensive and defensive security, simulated SOC environments, and CTF networks.
* Solved advanced environments including Anonymous Playground and Mr. Robot, applying binary exploitation, custom scripting, reverse engineering, privilege escalation, web-application logic analysis, and cryptography.
* Completed 24 consecutive practical offensive and defensive labs during Advent of Cyber 2025.

**CTF COMPETITOR**

Competed in the EscalateX V2 pre-screening at GLA University and the Digital Manhunt online round as a member of Team Cyber Geeks (GDG On Campus, IILM University).

## LEADERSHIP & COMMUNITY

### Campus Leader - Hackbyte Codex

Selected to lead the technical security community, encouraging developer engagement, CTF learning paths, and peer mentoring.

## EDUCATION

### Bachelor of Computer Applications (BCA)

Maharaja Agrasen College | Delhi, India

## CERTIFICATIONS & ADVANCED TRAINING

* **CyberZero & The Cybersecurity Council** - 45-Day Intensive Cybersecurity Program
* **Redynox** - Cybersecurity Task Assignment Certification
* **Hashtag Jemtec** - Troubleshoot Ideathon Certificate
* **Arexa & Bharat XR** - SnapAR Hands-on Augmented Reality Lens Creation Workshop
